

Welch Allyn® 125 Binocular Indirect Ophthalmoscope

Brilliant halogen illumination and state-of-the-art optical system provides excellent images and the easiest fusion capability. Adjustable from 49 mm to 74 mm to meet the narrowest interpupillary distance requirements. SoftTilt™ park/rest feature swings optics out of the line

of vision when not in use. Double-sealed housing and internally sealed illumination system keep optics dust free. Easy access fingertip controls. Safety filter protects against hazardous lamp radiations (UV/IR). Padded headband is designed to conform regardless of head size or shape.

Lighted Intubation Stylet

Aaron's Surch-Lite™ Orotracheal Intubation Stylet assures correct placement of the endotracheal tube when a bright glow in the midline of the laryngeal prominence is seen. Flexible shafts, a protective coating over the bulb housing, and a one-hand activation on/off switch provide easy operation, safety, and convenience.

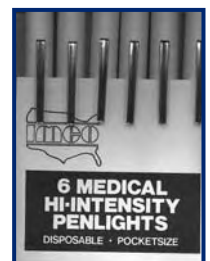

- Aids in proper placement of endotracheal tubes.
- Effectively transilluminates soft tissues of the neck.
- Provides minimal neck flexion in trauma cases.
- Aids in blind intubation.

0020-SLOT Orotracheal Lighted Intubation Stylet

IMCO Disposable Hi-Intensity Penlight

Six pack of disposable, lightweight penlights for office examinations, hospital rounds, and emergency use. Each pack contains six Disposable Hi-Intensity Penlights, with selected pinpoint lens-end lamps, in a resealable plastic bag. Each unit will last from six to nine months or more, depending on the method and frequency of use. You never need to replace bulbs or batteries. The clip is the switch.
